

SEEK ACADEMIC SUPPORT CENTER (ASC)

We provide holistic support services to students by developing non-traditional initiatives that increase accessibility and usage of tutoring services.

BENEFITS AND SERVICES

NYS Legislation states SEEK students with 30 or less credits and a GPA less than 3.0 are **MANDATED** to attend tutoring twice a week. Failure to comply results in a loss of program benefits and program status.

SEEK Tutoring equips students with the power to develop a deep understanding of their course material while gaining transferable skills that will mold them into independent leaders of tomorrow. Specifically, tutoring is offered in one-on-one or small groups, so they may work closely with SEEK Learning Facilitators and learn within a holistic capacity.
